Important note: When simplifying expressions, addition and subtraction operations must be done working left to right!!!!

$6 - 4 - 1$ $\underline{6 - 4} + 1$ $\underline{-6 - 3} + 8$ $\underline{-2 + 6} - 8 - 3$

<----+---->

-10 -9 -8 -7 -6 -5 -4 -3 -2 -1 0 1 2 3 4 5 6 7 8 9 10

$$\frac{8 - 15}{-7} + 9 - 6$$

$$-8 + 11 + 6 - 4$$
